

---

**Position:** Drone Assistant Intern

**Pay:** High School or College Credit / Part 107 Cert and sUAS NIST Cert

**Schedule:** During Scheduled Events (flexible based on summer missions and training)

**Location:** Valdez, Alaska + Field Locations

**Age:** 16+

---

## About the Role & Who We're Looking For:

This internship is for a motivated student who's excited about drone technology, hands-on learning, and future opportunities in a growing industry. As a Drone Assistant Intern, you'll support our drone team during real-world operations, including mapping, inspections, and technical missions across Alaska. You'll learn the ins and outs of drone equipment, safety protocols, and support roles during live flights. This is a training-focused internship with the potential for **employment after the summer** based on performance.

You're curious, tech-savvy, dependable, and ready to learn—whether you're helping prep gear or watching missions in action. If you love the idea of flying drones for real clients and earning valuable certifications, this is your chance.

---

## Responsibilities:

As a Drone Assistant Intern, you'll help prep gear, support field missions, and learn safety checklists, workflows, and data collection. You'll need to be focused, follow directions well, and show up on time—ready to learn and contribute.

---

## What You'll Gain:

- **Part 107 Drone Pilot Training** (FAA Commercial License)
  - **NIST III Training & Certification**
  - **Real Experience in Client Drone Operations:** Drone Mapping, Safety and Field Protocols, Etc.
-
